Subject: RE: search for 10/524,466

Glad to help. Here are some search areas:

524/5 for polymer (3). This sub additionally has cement.

524/131 for phosphonobutane tricarboxylic acid. This sub additionally has any polymer.

524/320 for citric acid. This sub additionally has any polymer.

Subject: search for 10/524,466

Hi Vasu,

I'm sorry to ask you (Peter Szekely is on vacation) but I was wondering if you could or a primary examiner could help provide me a search for this case 10/523,466 or direct me to someone

who could if this is not your area. I already searched it in 106 and could not separate or restrict so was hoping for possible searches in 524 or 523 or other classes if necessary.

I just need search for fluid admixture without the cement claims 1-3.

Thanks very much for your help in finding where to look for this one.

Paul Marcantoni
